

Project 3 - ID1750

Project 3 - Movement and Layout

John Johnson - USU Interior Design 1750

Written Statement from Client

I like transitional style and traditional style. Mostly wood or tile. 3 bedrooms, at least two baths, neutral colors, natural light, a big kitchen/ family gathering area

Also a mud room would be nice. Like a little transitional room between the garage and kitchen maybe. It could also serve as the laundry room. These are just ideas, you don't have to design it this way.

Written Response

The client wanted open spaces so I tried to accomplish that by having a wide open living area. I tried to separate the areas in the living area by their furniture and the rugs underneath them. I chose a light grey blue as the wall color (this matches closest to the elemental color on the swatch-board). I made sure the house had three bedrooms and two and a half baths which were per the client's request.

For my swatch-board I went to Lowe's to find paint color and material samples, and I was able to find a maple wood sample (which would be the main flooring throughout the living area and kitchen) and some paint colors, but I was not able to find any carpet samples or tile samples. I took pictures of some materials I could not find samples for mainly black granite (for the kitchen and bathroom counter-tops) and travertine (for the bathroom floors). Due to this my swatch board is partially physical and partially digital. Though it is not on the swatch board I plan to have white cabinetry for the kitchen and bathrooms.

As the client requested I tried to keep to: mainly neutral colors, having a big kitchen, and having a moderately large family gathering area for the house size and number of bedrooms. I believe, I also accomplished a traditional style.

The client and I looked at some photos of different kitchens that could act as inspiration for the design and I tried to make sure I matched her taste in kitchen style.

Overall I think the design was a success and made great use of open space, but still allowed for separation between different rooms.

Swatch Board

Physical

Digital

Black Granite - Counter-tops

Carpet - Bedroom flooring

Travertine - Bathroom flooring
